

Two years ago I moved to Central Oregon. Being a avid radio listener I was very disappointed with local radio options. I subscribed with XM satellite radio and plan to continue that subscription long into the future. I surf the options on XM and enjoy it's multitude of choices, AND THAT'S WHAT I PAY FOR! I urge the FCC to reject NAB'S petition 04-160. Please let XM's subscribers determine what what they want to listen to! I do travel with my XM radio and do use it's traffic and weather stations. Thank you, Thomas L. Kinley
